Dear Sir

Mr T N. Stanford has handed me your letter of 31 ult.

I particularly notice the last clause in your letter Viz. "I have much doubt if the House remaining in Race St, is insured from Fire – if not & it should burn down your Bond is not secure."

Do you not think it had better be insured at the expense of the Committee? if so you will very much oblige me by getting it done & draw on me for the Amt –

Respectfully Yours

Ans, Feb 24/59 — Insurance can be had at 2½ per Depart — premium say $300 per — Secure Policy for 4 — Deposit can be taken up at any time 30 days Notice during life —

Ask what would you think of Ch Ch. gallery the Insurance for your Executors — and a Legacy in the event of that Insurance becoming void or if not so the Office would pay the Legacy — No funds to appear — The Annuitant to apply for Commutation & sell, the proceeds to be invested in the funds to produce the Annuity sufficient to pay your Legacy, of then should be enough, then what else may remain for the Office to get to Ch Ch, or should it not be sufficient to pay your Legacy in full — I. H. That no having paid any Insurance, would have no just claim on any advantage accruing under it —

I dare say it will be perfectly Correct & Satisfactory — I will make the Insurance for the Amount you may direct & in the name & your Executors — please give me the Corporate Name &c.

Very Respectfully
M Thompson

My Dear Sir

Your letter to my father came to hand many days since I left Albion Illinois & I have to say to you in reply that the House in Race Street is insured in Perpetual Insurance to amount of $4000. which I consider the fact that surrounding the House entirely consumed at any time, before the general conflagration at the end of time, the ground itself will escape is sufficient security for the value of $4000 —

I would have told you as much yesterday if I had not found you occupied & soon missing when I was in about your office — Yours Truly
